SEPICONTROL A5 An active ingredient for greasy, acne prone skin. It regulates the 5 major causes of this type of skin imbalance (bacterial proliferation, lipases, 5 α -reductase, inflammatory elastases, free radicals). The skin becomes cleaner, less greasy and free of its imperfections.

MONTANOV 202 A glucolipid, emulsifier of vegetable origin. MONTANOV 202 can be used as a coemulsifier of SIMULSOL 165. It significantly improves the emulsion's appearance and improves softness without any greasy effect.
