

SMOOTH EMULSION WIPE 6916

Formula

A	<ul style="list-style-type: none">• Water• SEPITONIC M3 (<i>Magnesium aspartate & Zinc gluconate & Copper gluconate - SEPPIC</i>)• Disodium EDTA• MONTANOV L (<i>C14-22 alcohol and C12-20 alkylglucoside - SEPPIC</i>)	44.00 % 1.00 % 0.10 % 0.50 %
B	<ul style="list-style-type: none">• LANOL 99 (<i>isononyl isononanoate - SEPPIC</i>)• Pentaerythrityl tetraethylhexanoate• SIMULGEL NS (<i>Hydroxyethylacrylate/sodium acryloyldimethyl taurate copolymer & squalane & polysorbate 60 - SEPPIC</i>)	2.50 % 2.50 % 1.50 %
C	<ul style="list-style-type: none">• Water	Up to 100%
D	<ul style="list-style-type: none">• SEPICIDE WP1 (<i>Propylene glycol /Phenoxyethanol/ Methylparaben/ Ethylparaben /Butylparaben/ Propylparaben / Isopropylparaben - SEPPIC</i>)• PROTEOL OAT (<i>Sodium lauroyl OAT aminoacids - SEPPIC</i>)• Fragrance	3.65 % 0.50 % 0.10 %

Procedure

Weight half of the water, add SEPITONIC - EDTA and MONTANOV L and heat to 75°C while mixing with a paddle type mixer. At 75°C continue mixing for 30'. Add B (B is at room temperature). Homogenize with a rotor stator mixing head at 3000 rpm for 4' (7kg TRIMIX), Make vacuum and start cooling. At 60°C introduce remaining water while homogenizing again for 4' at 3000 rpm. Blend ingredients in D then add D with moderate stir.

Comments

MONTANOV L Glucolipid emulsifier in harmony with nature. MONTANOV L is especially useful to produce fluid formulas whatever the type or quantity of oil phase used.

SIMULGEL NS Thickening and emulsifying agent in very easy to use liquid form (no pre-dispersion or neutralization). SIMULGEL NS perfectly stabilizes emulsions even fluid emulsions against high temperatures.

PROTEOL OAT Surfactant based on essential amino acids of oats. Due to its high skin tolerance level, PROTEOL OAT is especially well-suited for formulas intended for delicate skin.

SEPITONIC M3

Multimineral chrono-energizer. Its zinc, copper and magnesium content helps stimulate the cells by increasing the energy profile (Pyruvate, ATP) and overall metabolism (DNA, proteins). Ideal for tired skin, SEPITONIC M3 delivers the elements needed for cell dynamism and the maintenance of skin function. It works to stimulate cell regeneration and helps restore fresh, radiant skin.

SEPICIDE WP1

Preservative.

Characteristics

Appearance	white fluid emulsion
pH	approx. 5
Viscosity	approx. 300 mPa.s BROOKFIELD LV 6rpm
Stability	> one month TA - 40°C > one week at 50°C

we recommend to add 300g of emulsion for 100g of dry viscose/polyester 65/35 50g/m²

Notes

Pentaerythrityl tetraethylhexanoate (distribué par SEPPIC dans certains pays – interrogez nous)
Fragrance : CAPORAL i863847 (MANE)

6916 – SEPPIC – A0310

Since the proposed formulation has not undergone a toxicological study, the handling and use of the proposed products are given as an indication only and in no way bind SEPPIC's responsibility.
