Fluid Brown Shiny Liquid / Packaging: Dropper**VISCOSITIES:** 1M at RT: 10,000 mPa.s Brookfield LV4-6 /**Recovery at RT (after 1M at 45°C):** 9,300 mPa.s Brookfield LV4-6.**STABILITY:** 1M at RT & 45°C.**FORMULATION ADVICES: Laboratory scale - 200 g - Ultra Turax**

Prepare them in a hot water bath at 80 °C. Weigh phase B and heat it. Add EASYNOV™ into phase A. Add phase B into phase A and emulsify with ultra turax at 4000 rpm for 2min, then shear at 8000 rpm for 10min. Add phase C. Homogenize with a spatula to well incorporate all the pigments mass. Cool down under anchor for 10 min at 100 rpm, then for an additional 10 min in a cold water bath.

This very fluid tinted emulsion must be added to the base in a quantity adapted to obtain more or less dark shade.

EASYNOV™ creates a fluid W/O emulsion.*(Octyldodecanol - Octyldodecyl Xyloside - PEG-30 Dipolyhydroxystearate)*

Liquid lipophilic emulsifier; It realizes emulsions with an **internal gelled aqueous phase extra-rich in water** by a **cold process** with gentle stirring; the **GELTRAP™** emulsions. Novel formulation form, offering surprising textures: **freshness & cushion effect**.

The combination of **EMOGREEN™ L15 & EMOGREEN™ L19** has been optimized to combine good playtime & a powdery soft finish.

EMOGREEN™ also allow an efficient & stable pigments dispersion.

THE alternative to volatile silicone oils: **non polar & biodegradable, bio-sourced emollients**. This **high purity** vegetable alkanes.

EMOGREEN™ L15 (C15-19 Alkane) (*Plant-based & Renewable);Beyond the **lightweight & non-greasy skin feel**, it gives a **powdery finish**.**EMOGREEN™ L19** (C15-19 Alkane) (*Plant-based & Renewable);It gives a **fresh & gliding touch**, with a **soft afterfeel**.**AQUAXYL™ ensures an intense skin moisturization.***(Xylitylglicoside - Anhydroxyllitol - Xylitol);*

It **moisturizes & restructures the skin by harmonizing its hydric flow**. Water reserves are instantly boosted, water circulation is improved in all skin layers & water loss is reduced (*in vitro* & *in vivo* tests prove this efficacy). It's **mechanism of action has been validated by cosmetogenomics**.
