

EU07606 | BRIGHTER TATTOO AFTER-CARE

Light & Fresh Cream Gel

NATURALITY PROFILE according to ISO 16128 norm

BIODEGRADABILITY Theoretical amount of water or readily biodegradable ingredients presents in mixture.*

Ravives tattoo radiance!

Light & fresh texture

Quick penetration

* Data provide from OECD tests, QSAR calculations, products SDS and literature.

A	Aqua / Water Glycerin	Up to 100% 5.00 %
B	SEPINOV™ EMT 10 SEPIMAX ZEN™ EMOGREEN™ L19	0.80 % 0.60 % 4.00 %
C	OLIGOGELINE™ PF Benzyl Alcohol - Benzoic Acid - Dehydroacetic Acid - Tocopherol	2.00 % 1.00 %
	CONTACTICEL™ Fragrance Sodium Hydroxyde (sol.24%)	1.00 % 0.10 % Up to pH

With WESOURCE

White Cream / Packaging: Pump bottle

pH: 5.3

VISCOSITIES: 1M at RT: 17,600 mPa.s Brookfield LV4-6 /
Recovery at RT (after 1M at 45°C): 17,600 mPa.s Brookfield LV4-6.

STABILITY: 1M at RT, 45°C & thermal cycles from -5°C/40°C.
Stable with centrifugation (3 000 rpm, 20 minutes).

FORMULATION ADVICES: Laboratory scale - 5 kg - Trimix

Weight phase A in tank. Add Phase B and mix with rotor stator at 2000 rpm during 8 min. Add phase C, mix until homogenisation during 5 min at 2000 rpm. Adjust pH to 5.0-5.5.

This body care product revives the tattoos radiance day after day! Its amazing light & fresh texture leaves a very powdery finish...without any texturizing powder!

A formula aimed for men & women, to use without moderation!

SEPINOV™ EMT 10 & SEPIMAX ZEN™ thicken & stabilize the cream gel while providing a fresh and watery skin feel. **SEPIMAX ZEN™** strengthens resistance to stressful active ingredients.

SEPINOV™ EMT 10 (Hydroxyethyl Acrylate / Sodium Acryloyldimethyl Taurate Copolymer) Powder polymer "2-in-1", thickening in a wide pH range (3-12), ready to use. **Excellent stabilizing properties.** Sensory profile: "satin" touch, fresh, glide-on.

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6) Powder polymer with a **maximum resistance to electrolytes**, with a high associative behavior (stable from pH 2 to 8). It's now possible to formulate with any kind of active ingredients, achieving ZEN.

EMOGREEN™ L19 provides a very glide-on skin feel with a powdery, non-greasy and soft finish. (C15-19 Alkane*) (*Plant-based & Renewable)

THE alternative to volatile silicone oils! **Non polar & biodegradable, bio-sourced emollient.** This **high purity** vegetable alkane gives a **fresh & gliding touch**, with a **soft afterfeel**. Inert & stable, it can be used in all types of applications, even in extreme conditions (pH, oxidizing/reducing media...).

OLIGOGELINE™ PF moisturizes tattooed skin to reveal its full radiance. It acts as a second skin & works together with **CONTACTICEL™** to protect the skin against pollution.

OLIGOGELINE™ PF (Aqua/Water - Chondrus Crispus Extract): Works as a 'second skin' by forming a **natural non occlusive shield**, to **protect from pollution effects** (78% of microparticles are removed / protection: 43% vs non-treated skin / significant results vs placebo).

CONTACTICEL™ (Aqua/Water - Butylene Glycol - Hydrolyzed Rhodophyceae Extract): From **CELEBRITY™** technology, Macroalgae cells of *Acrochaetium moniliform*; **skin protection against pollution** (efficacy proven on volunteers: **limits excessive sebum production** in Shanghai's polluted atmosphere / **reduces the ozonolized squalene**).

ADDITIONAL INGREDIENTS: Benzyl Alcohol - Benzoic Acid - Dehydroacetic Acid - Tocopherol: EUXYL K903 (SCHÜLKE & MAYR) / Fragrance : Just Delicious (Technico Flor).

A formula related to **MILLENIALS** concept
