

GORGEOUS BUST GRANITA PLUMPING CARE

**W/O
Emulsion**

- White emulsion
- Packaging: jar
- **Granita velvet « push-up » care** to tonify the bust and to keep the youth of the neck and décolletage.
- Plumping and restructuring action of **VOLUFORM™** which shapes the breast
- A real breath of oxygen and efficacy, **SEPITONIC™ M3** boosts skin oxygenation
- **SEPIMAX™ ZEN** texturizes an airy original mousse and **EASYNOV™** brings a soft and velvet finish on skin.

US20038 - 1503

Formula

Formula		
A	Aqua/Water Glycerin SEPIMAX™ ZEN SEPITONIC™ M3	Qsp 100% 3.00% 1.00% 1.00%
B	Phenoxyethanol and Ethylhexylglycerin EASYNOV™ VOLUFORM™ Hydrogenated Stearyl Olive Oil Esters LANOL™ P LANOL™ 99	1.00% 3.00% 1.00% 9.40% 5.60% 5.00%
C	Dimethicone and Dimethicone and Vinyl Dimethicone Crosspolymer	3.00%
D	Fragrance	0.50%

Procedure

5 kg - TRIMIX

Heat water and glycerin to 70°C and add ingredients of phase A one by one under stirring (rotor/stator 2000rpm). Separately melt phase B to 80°C and add phase C into B. Then, add B+C to phase A under gentle stir. Leave it cool naturally to 35°C and then add phase D. Package directly in jars.

Characteristics

Appearance	White emulsion
Viscosity 1M at RT	105 000 mPa.s Brookfield S7S5
Viscosity 1M at 45° C	35 000 mPa.s Brookfield S7S5
Viscosity recovery at RT (after 1M at 45° C)	94 000 mPa.s Brookfield S7S5
Stability*	Stable at RT /45° C/ thermal cycles -5° / +40° C

Raw materials from SEPPIC

SEPIMAX™ ZEN

Polyacrylate Crosspolymer-6

Powder polymer with a MAXIMUM resistance to electrolytes thanks to its high associative behavior. Stable from pH 2 to 8, it enables the creation of formulas with a specific skin feeling: rich, velvety and elegant. It is now possible to formulate transparent aqueous gels, cream-gels and emulsions with any kind of active ingredients and to achieve ZEN.

SEPITONIC™ M3

Magnesium Aspartate and Zinc Gluconate and Copper Gluconate

Smart mineral complex, it boosts oxygenation and efficacy of other active ingredient in formulas. SEPITONIC™ M3 is a cell chrono-energizing and anti-free radical agent designed for hair and skin care. Increasing the cutaneous oxygenation, SEPITONIC™ M3 is active at any age for vitality, skin aging prevention and protection against stress and pollution.

EASYNOV™

Octyldodecanol and Octyldodecyl Xyloside and PEG-30 Dipolyhydroxystearate

EASYNOV™ is a liquid lipophilic emulsifier. It allows you to develop Water-in-Oil emulsions without wax and thus gives soft and silky texture without sticky or tacky effect. Thanks to its liquid form, the emulsions can be prepared by a cold process.

VOLUFORM™

Palmitoyl Isoleucine

Thanks to VOLUFIRMING technology, Voluform is able to fill and to give curves to the thinned and sagging cutaneous zones by targeting the cells responsible for plumping and firming. It favours the effect of the adipocytes by stimulating their differentiation and limiting their degeneration (inhibition of altered adipocytes, MAD cells). The fibroblasts gymnastics make the dermal meshing firmer and more dynamic. The volume of the face marked by aging is remodelled and the wrinkles formed are filled and erased (clinical efficacy validated on senior citizens). Ecocert approved.

LANOL™P

Glycol Palmitate

Texturing agent which improves the consistency of the formula and brings soft skin feel, without any soaping effect.

LANOL™ 99

Isononyl Isononanoate

Emollient agent.

Other raw materials...

- Phenoxyethanol & Ethylhexylglycerin: **EUXYL PE9010 (SCHÜLKE & MAYR)**
- Hydrogenated Stearyl Olive Oil Esters: **PHYTOWAX OLIVE 18-L57 (SOPHIM)**
- Dimethicone & Dimethicone/Vinyl Dimethicone Crosspolymer: **USG-107A (DKSH / SHIN-ETSU)**
- Fragrance: **JUST DELICIOUS (TECHNICO FLOR)**
